Privacy policy

Privacy Policy

We have written this privacy policy (version 01.01.1970-121671919) to provide you with information in accordance with the requirements of the [General Data Protection Regulation \(EU\) 2016/679](#) as well as to explain what information we collect, how we use data and what choices you have as a visitor to this website.

Privacy policies usually sound very technical. However, this version should describe the most important things as simply and clearly as possible. Moreover, technical terms are explained in a reader-friendly manner whenever possible. We would also like to convey that we only collect and use information via this website if there is a corresponding legal basis for it. This is certainly not possible if you give very brief technical explanations, as are often standard on the Internet when it comes to data protection. We hope you find the following explanations interesting and informative. Maybe you will also find some information that you did not know yet.

Should you still have questions, we kindly ask you to follow the existing links to see further information on third-party websites, or to simply write us an email. You can find our contact information in our website's imprint.

Automatic Data Retention

Every time you visit a website nowadays, certain information is automatically created and saved, just as it happens on this website.

Whenever you visit our website such as you are doing right now, our webserver (computer on which this website is saved/stored) automatically saves data such as

- the address (URL) of the accessed website
- browser and browser version

- the used operating system
- the address (URL) of the previously visited site (referrer URL)
- the host name and the IP-address of the device the website is accessed from
- date and time

in files (webservice-logfiles).

Generally, webservice-logfiles stay saved for two weeks and then get deleted automatically. We do not pass this information to others, but we cannot exclude the possibility that this data will be looked at in case of illegal conduct.

Cookies

Our website uses HTTP-cookies to store user-specific data.

For your better understanding of the following Privacy Policy statement, we will explain to you below what cookies are and why they are in use.

What exactly are cookies?

Every time you surf the internet, you use a browser. Common browsers are for example Chrome, Safari, Firefox, Internet Explorer and Microsoft Edge. Most websites store small text-files in your browser. These files are called cookies.

What should not be dismissed, is that cookies are very useful little helpers. Nearly all websites use cookies. More accurately speaking these are HTTP-cookies, since there are also different cookies for other uses. http-cookies are small files which our website stores on your computer. These cookie files are automatically put into the cookie-folder, which is like the “brain” of your browser. A cookie consists of a name and a value. Moreover, to define a cookie, one or multiple attributes must be specified.

Cookies save certain parts of your user data, such as e.g. language or personal page settings. When you re-open our website, your browser submits these “user specific” information back to our site. Thanks to cookies, our website knows who you are and offers you the settings you are familiar to. In some browsers every cookie has its own file, in others such as Firefox, all cookies are stored in one single file.

There are both first-party cookies and third-party cookies. First-party cookies are created directly by our site, while third-party cookies are created by partner-websites (e.g. Google Analytics). Every cookie is individual, since every cookie stores different data. The expiration time of a cookie also varies – it can be a few minutes, or up to a few years. Cookies are no software-programs and contain no computer viruses, trojans or any other malware. Cookies also cannot access your PC’s information.

This is an example of how cookie-files can look:

name: _ga

value: GA1.2.1326744211.152121671919-9

purpose: differentiation between website visitors

expiration date: after 2 years

A browser should support these minimum sizes:

- at least 4096 bytes per cookie
- at least 50 cookies per domain
- at least 3000 cookies in total

Which types of cookies are there?

What exact cookies we use, depends on the used services. We will explain this in the following sections of the Privacy Policy statement. Firstly, we will briefly focus on the different types of HTTP-cookies.

There are 4 different types of cookies:

Essential Cookies

These cookies are necessary to ensure the basic function of a website. They are needed when a user for example puts a product into their shopping cart, then continues surfing on different websites and comes back later in order to proceed to the checkout. Even when the user closed their window priorly, these cookies ensure that the shopping cart does not get deleted.

Purposive Cookies

These cookies collect info about the user behaviour and record if the user potentially receives any error messages. Furthermore, these cookies record the website's loading time as well as its behaviour within different browsers.

Target-orientated Cookies

These cookies care for an improved user-friendliness. Thus, information such as previously entered locations, fonts or data in forms stay saved.

Advertising Cookies

These cookies are also known as targeting-Cookies. They serve the purpose of delivering individually adapted advertisements to the user. This can be very practical, but also rather annoying.

Upon your first visit to a website you are usually asked which of these cookie-types you want to accept. Furthermore, this decision will of course also be saved in a cookie.

How can I delete cookies?

You yourself take the decision if and how you want to use cookies. Thus, no matter what service or website cookies are from, you always have the option to delete, deactivate or only partially allow them. Therefore, you can for example block cookies of third parties but allow any other cookies.

If you want change or delete cookie-settings and would like to determine which cookies have been saved to your browser, you can find this info in your browser-settings:

[Chrome: Clear, enable and manage cookies in Chrome](#)

[Safari: Manage cookies and website data in Safari](#)

[Firefox: Clear cookies and site data in Firefox](#)

[Internet Explorer: Delete and manage cookies](#)

[Microsoft Edge: Delete cookies in Microsoft Edge](#)

If you generally do not want to allow any cookies at all, you can set up your browser in a way, to notify you whenever a potential cookie is about to be set. This gives you the opportunity to manually decide to either permit or deny the placement of every single cookie. The settings for this differ from browser to browser. Therefore, it might be best for you to search for the instructions in Google. If you are using Chrome, you could for example put the search phrase “delete cookies Chrome” or “deactivate cookies Chrome” into Google.

How is my data protected?

There is a “cookie policy” that has been in place since 2009. It states that the storage of cookies requires the user’s consent. However, among the countries of the EU, these guidelines are often met with mixed reactions. In Austria the guidelines have been implemented in § 96 section 3 of the Telecommunications Act (TKG).

If you want to learn more about cookies and do not mind technical documentation, we recommend <https://tools.ietf.org/html/rfc6265>, the Request for Comments of the Internet Engineering Task Force (IETF) called “HTTP State Management Mechanism”.

Storage of Personal Data

Any personal data you electronically submit to us on this website, such as your name, email address, home address or other personal information you provide via the transmission of a form or via any comments to the blog, are solely used for the specified purpose and get stored securely along with the respective submission times and IP-address. These data do not get passed on to third parties.

Therefore, we use personal data for the communication with only those users, who have explicitly requested being contacted, as well as for the execution of the services and products offered on this website. We do not pass your personal data to others without your approval, but we cannot exclude the possibility this data will be looked at in case of illegal conduct.

If you send us personal data via email – and thus not via this website – we cannot guarantee any safe transmission or protection of your data. We recommend you, to never send confidential data via email.

Rights in accordance with the General Data Protection Regulation

You are granted the following rights in accordance with the provisions of the [GDPR](#) (General Data Protection Regulation) and the Austrian [Data Protection Act \(DSG\)](#):

- right to rectification (article 16 GDPR)
- right to erasure (“right to be forgotten“) (article 17 GDPR)
- right to restrict processing (article 18 GDPR)
- right to notification – notification obligation regarding rectification or erasure of personal data or restriction of processing (article 19 GDPR)
- right to data portability (article 20 GDPR)
- Right to object (article 21 GDPR)
- right not to be subject to a decision based solely on automated processing – including profiling – (article 22 GDPR)

If you think that the processing of your data violates the data protection law, or that your data protection rights have been infringed in any other way, you can lodge a complaint with your respective regulatory authority. For Austria this is the data protection authority, whose website you can access at <https://www.data-protection-authority.gv.at/>.

Evaluation of Visitor Behaviour

In the following Privacy Policy, we will inform you on if and how we evaluate the data of your visit to this website. The evaluation is generally made anonymously, and we cannot link to you personally based on your behaviour on this website.

You can find out more about how to disagree with the evaluation of visitor data, in the Privacy Policy below.

Embedded Social Media elements Privacy Policy

We have embedded elements from social media services on our website, to display pictures, videos and texts. By visiting pages that present such elements, data is transferred from your browser to the respective social media service, where it is stored. We do not have access to this data.

The following links lead to the respective social media services’ sites, where you can find a declaration on how they handle your data:

- Instagram Data Policy: <https://help.instagram.com/519522125107875>
- For YouTube, the Google Privacy Policy applies: <https://policies.google.com/privacy?hl=en-GB>
- Facebook Data Policy: <https://www.facebook.com/about/privacy>
- Twitter Privacy Policy: <https://twitter.com/en/privacy>

YouTube Privacy Policy

We have integrated YouTube videos to our website. Therefore, we can show you interesting videos directly on our site. YouTube is a video portal, which has been a subsidiary company of Google LLC since 2006. The video portal is operated by YouTube, LLC, 901 Cherry Ave., San Bruno, CA 94066, USA. When you visit a page

on our website that contains an embedded YouTube video, your browser automatically connects to the servers of YouTube or Google. Thereby, certain data are transferred (depending on the settings). Google is responsible for YouTube's data processing and therefore Google's data protection applies.

In the following we will explain in more detail which data is processed, why we have integrated YouTube videos and how you can manage or clear your data.

What is YouTube?

On YouTube, users can watch, rate, comment or upload videos for free. Over the past few years, YouTube has become one of the most important social media channels worldwide. For us to be able to display videos on our website, YouTube provides a code snippet that we have integrated to our website.

Why do we use YouTube videos on our website?

YouTube is the video platform with the most visitors and best content. We strive to offer you the best possible user experience on our website, which of course includes interesting videos. With the help of our embedded videos, we can provide you other helpful content in addition to our texts and images. Additionally, embedded videos make it easier for our website to be found on the Google search engine. Moreover, if we place ads via Google Ads, Google only shows these ads to people who are interested in our offers, thanks to the collected data.

What data is stored by YouTube?

As soon as you visit one of our pages with an integrated YouTube, YouTube places at least one cookie that stores your IP address and our URL. If you are logged into your YouTube account, by using cookies YouTube can usually associate your interactions on our website with your profile. This includes data such as session duration, bounce rate, approximate location, technical information such as browser type, screen resolution or your Internet provider. Additional data can include contact details, potential ratings, shared content via social media or YouTube videos you added to your favourites.

If you are not logged in to a Google or YouTube account, Google stores data with a unique identifier linked to your device, browser or app. Thereby, e.g. your preferred language setting is maintained. However, many interaction data cannot be saved since less cookies are set.

In the following list we show you cookies that were placed in the browser during a test. On the one hand, we show cookies that were set without being logged into a YouTube account. On the other hand, we show you what cookies were placed while being logged in. We do not claim for this list to be exhaustive, as user data always depend on how you interact with YouTube.

Name: YSC

Value: b9-CV6ojI5Y121671919-1

Purpose: This cookie registers a unique ID to store statistics of the video that was

viewed.

Expiry date: after end of session

Name: PREF

Value: f1=50000000

Purpose: This cookie also registers your unique ID. Google receives statistics via PREF on how you use YouTube videos on our website.

Expiry date: after 8 months

Name: GPS

Value: 1

Purpose: This cookie registers your unique ID on mobile devices to track GPS locations.

Expiry date: after 30 minutes

Name: VISITOR_INFO1_LIVE

Value: 95Chz8bagyU

Purpose: This cookie tries to estimate the user's internet bandwidth on our sites (that have built-in YouTube videos).

Expiry date: after 8 months

Further cookies that are placed when you are logged into your YouTube account:

Name: APISID

Value: zILlvClZSkqGsSwI/AU1aZI6HY7121671919-

Purpose: This cookie is used to create a profile on your interests. This data is then used for personalised advertisements.

Expiry date: after 2 years

Name: CONSENT

Value: YES+AT.de+20150628-20-0

Purpose: The cookie stores the status of a user's consent to the use of various Google services. CONSENT also provides safety measures to protect users from unauthorised attacks.

Expiry date: after 19 years

Name: HSID

Value: AcRwpgUik9Dveht0I

Purpose: This cookie is used to create a profile on your interests. This data helps to display customised ads.

Expiry date: after 2 years

Name: LOGIN_INFO

Value: AFmmF2swRQIhAL16aL...

Purpose: This cookie stores information on your login data.

Expiry date: after 2 years

Name: SAPISID

Value: 7oaPxoG-pZsJuuF5/AnUdDUIsJ9iJz2vdM

Purpose: This cookie identifies your browser and device. It is used to create a profile

on your interests.

Expiry date: after 2 years

Name: SID

Value: oQfNKjAsI121671919-

Purpose: This cookie stores your Google Account ID and your last login time, in a digitally signed and encrypted form.

Expiry date: after 2 years

Name: SIDCC

Value: AN0-TYuqub2JOcDTyL

Purpose: This cookie stores information on how you use the website and on what advertisements you may have seen before visiting our website.

Expiry date: after 3 months

How long and where is the data stored?

The data YouTube receive and process on you are stored on Google's servers. Most of these servers are in America. At

<https://www.google.com/about/datacenters/inside/locations/?hl=en> you can see where Google's data centres are located. Your data is distributed across the servers. Therefore, the data can be retrieved quicker and is better protected against manipulation.

Google stores collected data for different periods of time. You can delete some data anytime, while other data are automatically deleted after a certain time, and still other data are stored by Google for a long time. Some data (such as elements on "My activity", photos, documents or products) that are saved in your Google account are stored until you delete them. Moreover, you can delete some data associated with your device, browser, or app, even if you are not signed into a Google Account.

How can I delete my data or prevent data retention?

Generally, you can delete data manually in your Google account. Furthermore, in 2019 an automatic deletion of location and activity data was introduced. Depending on what you decide on, it deletes stored information either after 3 or 18 months.

Regardless of whether you have a Google account or not, you can set your browser to delete or deactivate cookies placed by Google. These settings vary depending on the browser you use. The following instructions will show how to manage cookies in your browser:

[Chrome: Clear, enable and manage cookies in Chrome](#)

[Safari: Manage cookies and website data in Safari](#)

[Firefox: Clear cookies and site data in Firefox](#)

[Internet Explorer: Delete and manage cookies](#)

[Microsoft Edge: Delete cookies in Microsoft Edge](#)

If you generally do not want to allow any cookies, you can set your browser to always notify you when a cookie is about to be set. This will enable you to decide to either allow or permit each individual cookie. Since YouTube is a subsidiary company of Google, Google's privacy statement applies to both. If you want to learn more about how your data is handled, we recommend the privacy policy at <https://policies.google.com/privacy?hl=en>.

Vimeo Privacy Policy

On our website, we use videos of the company Vimeo. This video portal is operated by Vimeo LLC, 555 West 18th Street, New York, New York 10011, USA. With the help of a plug-in, we can display interesting video material directly on our website. Consequently, some of your data may be transmitted to Vimeo. In this privacy policy we want to explain to you what data this is, why we use Vimeo and how you can manage your data or prevent data transmission.

What is Vimeo?

Vimeo is a video platform that was founded in 2004 and introduced video streaming in HD quality in 2007. Since 2015 it has been possible to stream in 4k Ultra HD. The use of the portal is free of charge, but it also contains certain paid content. Compared to the market leader YouTube, Vimeo attaches great importance to valuable content in good quality. On the one hand, the portal offers a lot of artistic content such as music videos and short films. On the other hand, it also offers useful documentaries on a broad spectrum of topics.

Why do we use Vimeo on our website?

The aim of our website is to provide you the best possible content, in the easiest and most accessible way we can. We will only be satisfied with our service, once we have reached that goal. The video service Vimeo supports us in achieving this goal. Vimeo gives us the opportunity to present high quality content to you directly on our website. Instead of us merely giving you a link to an interesting video, you can watch the video here with us. This extends our service and makes it easier for you to access interesting content. Therefore, in addition to our texts and images, we can also offer video content.

What data is stored on Vimeo?

When you open a site on our website that has a Vimeo video embedded to it, your browser will connect to Vimeo's servers, and a data transmission will take place. The data are then collected, stored and processed on Vimeo's servers. Regardless of whether you have a Vimeo account or not, Vimeo collects data about you. This includes your IP address, technical information about your browser type, your operating system or very basic device information. Furthermore, Vimeo store information on what website you use their service on and which actions (web activities) you carry out on our website. These web activities include e.g. session duration, bounce rate or which button you clicked on our site that contains a Vimeo function. Vimeo can track and store these actions using cookies and similar technologies.

If you are logged in as a registered member of Vimeo, more data may be collected, since a bigger number of cookies may already have been set in your browser. Furthermore, your actions on our website are directly linked to your Vimeo account. To prevent this, you must log out of Vimeo while “surfing” our website.

Below we will show you an array of cookies Vimeo sets when you are on a website containing an integrated Vimeo function. This list is not exhaustive and assumes that you do not have a Vimeo account.

Name: player

Value: “”

Purpose: This cookie saves your settings before you play an embedded Vimeo video. This will ensure you to receive your preferred settings again next time you watch a Vimeo video.

Expiry date: after one year

Name: void

Value: pl1046149876.614422590121671919-4

Purpose: This cookie collects information about your actions on websites that have a Vimeo video embedded to them.

Expiry date: after 2 years

Note: These two cookies are set every time as soon as you are on a website that has a Vimeo video embedded to it. If you watch the video and click a button such as “share” or “like”, additional cookies will be set. These can also be third-party cookies such as `_ga` or `_gat_UA-76641-8` from Google Analytics or `_fbp` from Facebook. The exact cookies that are set depends on your interaction with the video.

The following list will show a selection of cookies that could be placed when you interact with a Vimeo video:

Name: `_abexps`

Value: `%5B%5D`

Purpose: This Vimeo cookie helps Vimeo to remember your settings. For example, this can be a pre-set language, a region or a username. The cookie generally stores data on how you use Vimeo.

Expiry date: after one year

Name: `continuous_play_v3`

Value: 1

Purpose: This cookie is a first-party cookie from Vimeo. The cookie collects information on how you use Vimeo’s service. For example, the cookie stores details on when you pause a video and resume it.

Expiry date: after one year

Name: `_ga`

Value: `GA1.2.1522249635.1578401280121671919-7`

Purpose: This cookie is a third-party cookie from Google. By default, analytics.js uses the `_ga` cookie to store the user ID. Thus, it serves to differentiate between website

visitors.

Expiry date: after 2 years

Name: _gcl_au

Value: 1.1.770887836.1578401279121671919-3

Purpose: This third-party cookie from Google AdSense is used to improve the efficiency of ads on websites.

Expiry date: after 3 months

Name: _fbp

Value: fb.1.1578401280585.310434968

Purpose: This is a Facebook cookie. It is used to display adverts or advertising products from Facebook or other advertisers.

Expiry date: after 3 months

Vimeo use this data to improve their own service, to communicate with you and to implement their own targeted advertising measures. On their website they emphasise that only first-party cookies (i.e. cookies from Vimeo itself) are used for embedded videos, provided you do not interact with the video.

How long and where is the data stored?

Vimeo is headquartered in White Plains, New York (USA). However, their services are offered worldwide. For this, the company uses computer systems, databases and servers in the United States and other countries. Thus, your data may also be stored and processed on servers in America. Vimeo stores the data until the company no longer has an economical reason for keeping it. Then the data will be deleted or anonymised. Vimeo correspond to the EU-U.S. Privacy Shield Framework and are therefore allowed to collect and use information from users within the EU, and to transfer this data to the USA.

How can I delete my data or prevent data retention?

You always have the option to manage cookies in your browser. If you do not want Vimeo to set cookies and collect information about you for example, you can delete or deactivate cookies in your browser settings at any time. These settings vary a little depending on the browser. Please note that after deactivating/deleting cookies, various functions may no longer be fully available. The following instructions show how you can manage or delete cookies in your browser.

[Chrome: Clear, enable and manage cookies in Chrome](#)

[Safari: Manage cookies and website data in Safari](#)

[Firefox: Clear cookies and site data in Firefox](#)

[Internet Explorer: Delete and manage cookies](#)

[Microsoft Edge: Delete cookies in Microsoft Edge](#)

If you are a registered Vimeo member, you can also manage cookies in Vimeo's settings.

Vimeo is an active participant in the EU-U.S. Privacy Shield Framework, which regulates correct and secure transfer of personal data. More information can be found at <https://www.privacyshield.gov/participant?id=a2zt00000008V77AAE&status=Active>. You can find out more on Vimeo's use of cookies at https://vimeo.com/cookie_policy, and you can find information about data protection at Vimeo at <https://vimeo.com/privacy>.
